LIFO-PRO Software Installation

Full LIFO-PRO Software Installation

Users that are installing & setting up the LIFO-PRO software on their computer for the first time need to download the LIFO-PRO-Setup.exe file.

Click the LIFO-PRO-Setup.exe button below to download the LIFO-PRO software installation file:

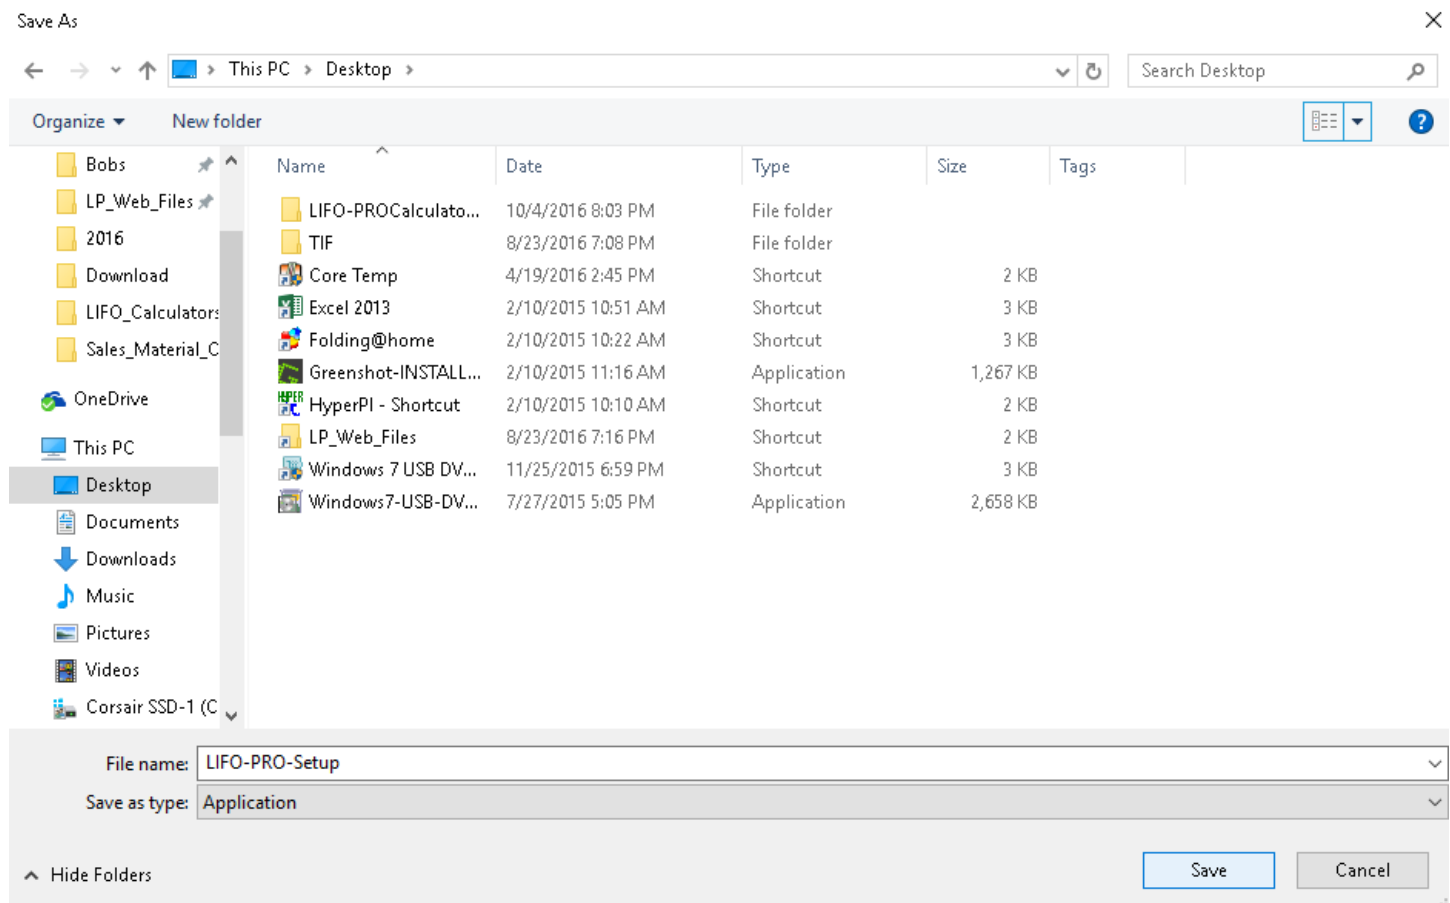

[LIFO-PRO-Setup.exe](#)

Step 3 – Click “Save as” when the file menu prompt screen appears at the bottom of the page (see below)

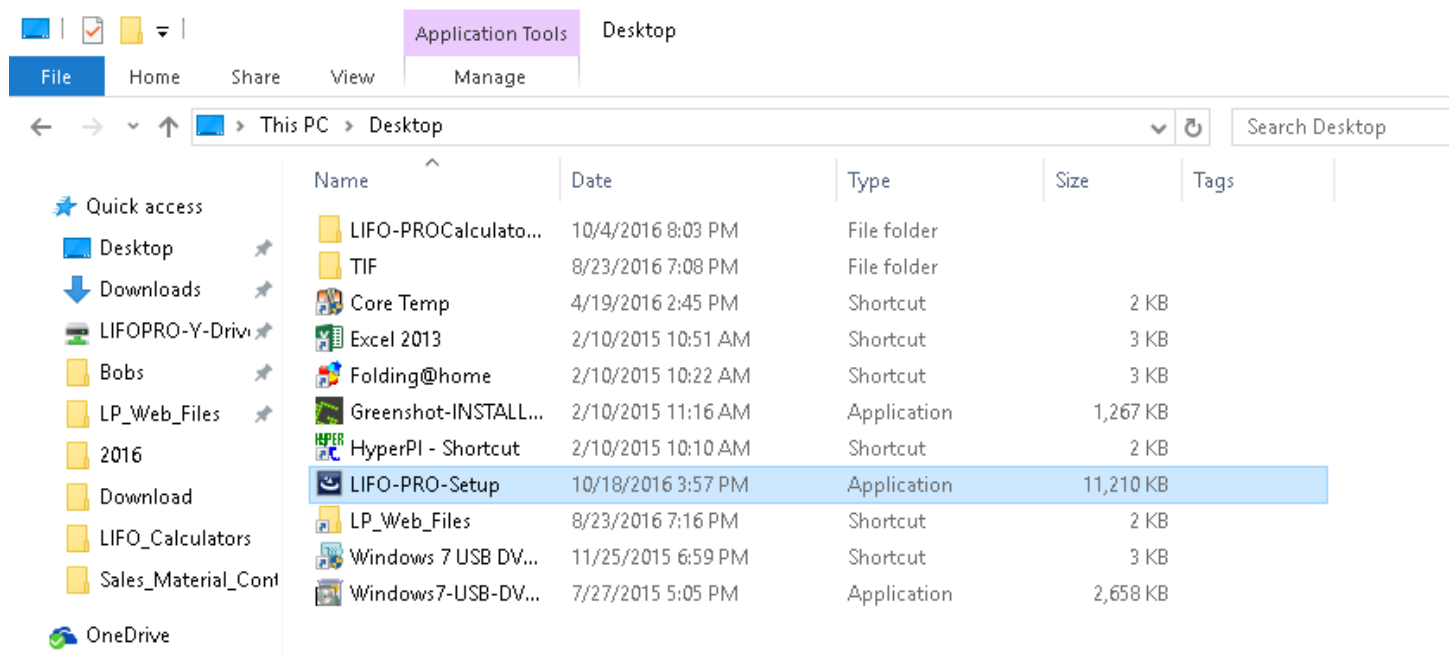

What do you want to do with LIFO-PRO-Setup.exe (10.9 MB)?
From: lifopro.com

Save Save as Cancel X

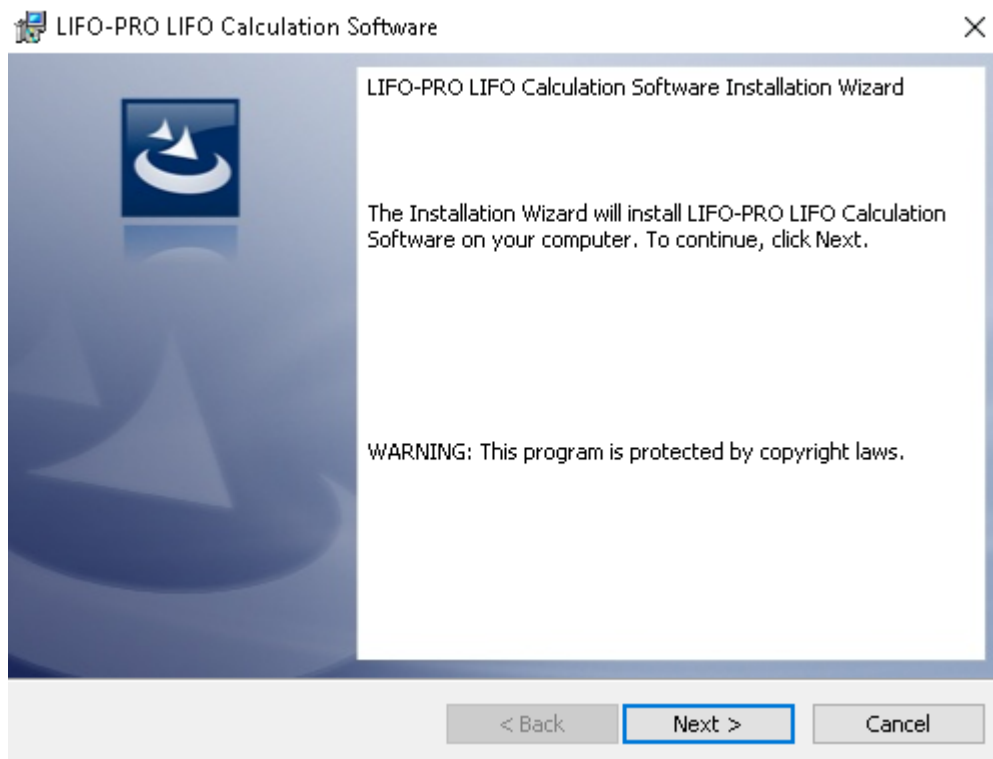

Step 4 – You may save the LIFO-PRO software installation file to any location (see below):

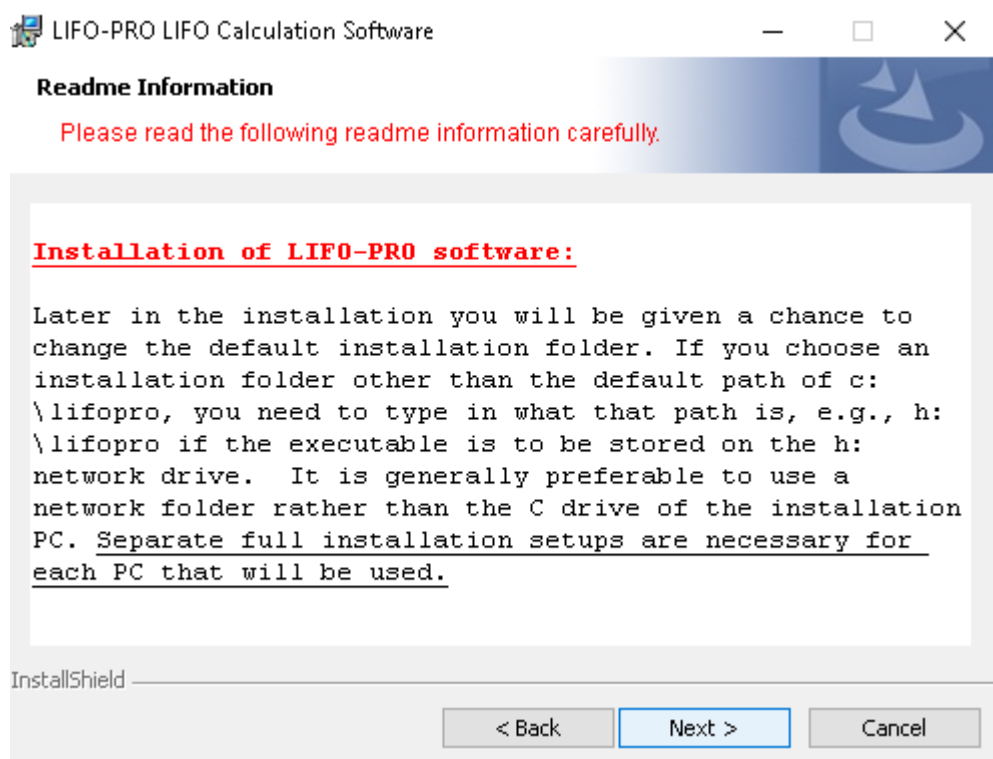

Step 5 – Open a file explorer menu screen (commonly referred to as windows explorer). Locate and select the LIFO-PRO-Setup.exe file. (see below):

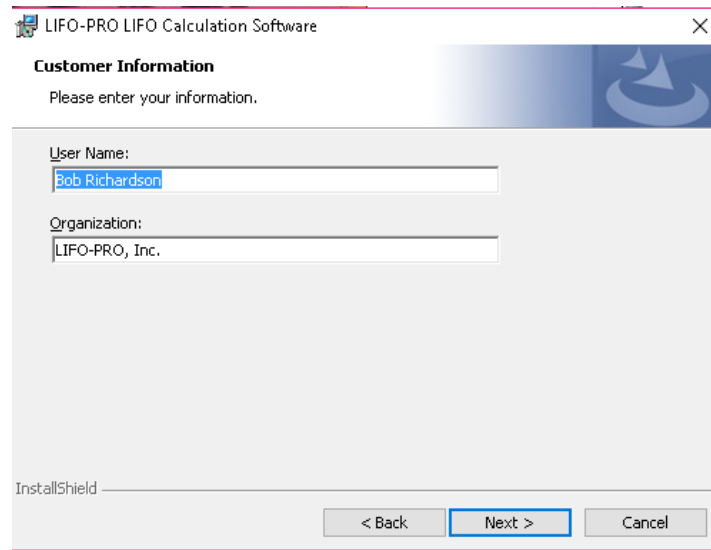

Step 6 – Double-click on the LIFO-PRO-Setup file. The LIFO-PRO software installation begins (see below):

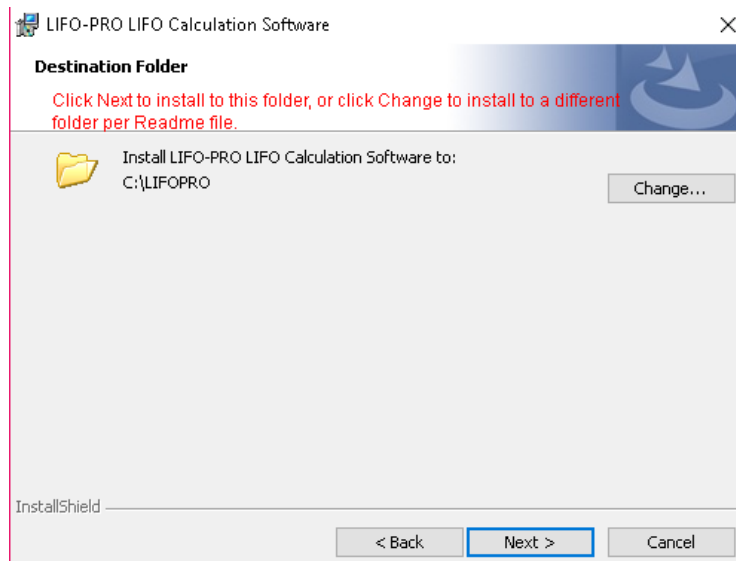

Step 7 – Press the next button. The screen below will appear next:

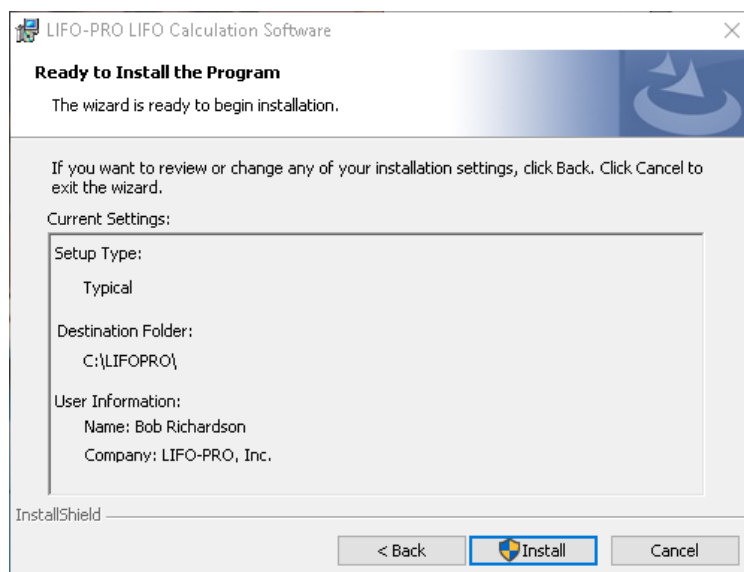

Step 8 – Press the next button. Enter your name and company information in the boxes provided (see below):

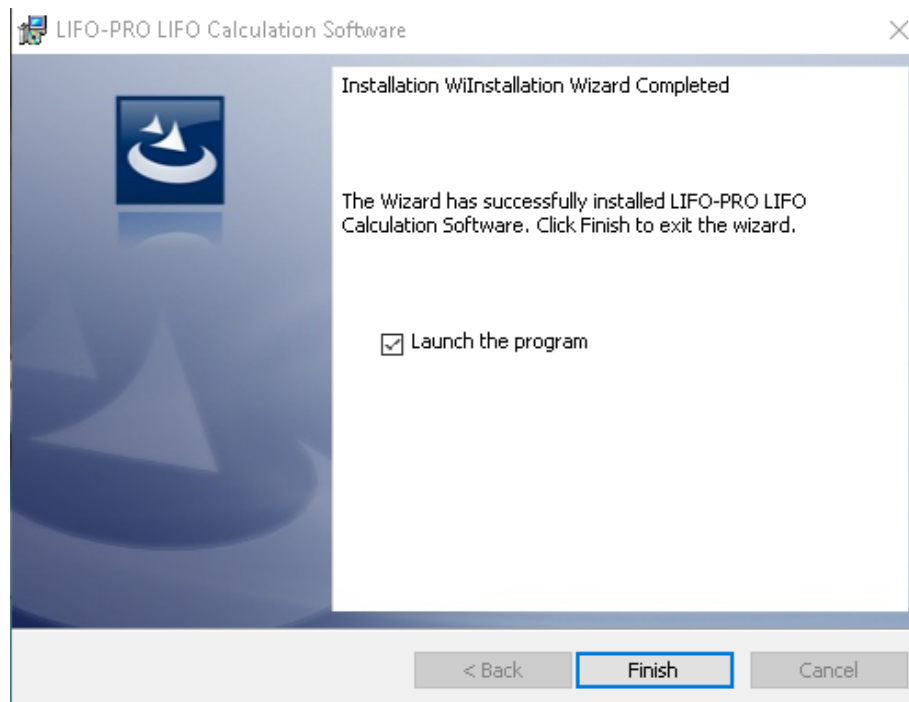

Step 9 – Confirm that you want to save the LIFO-PRO software onto your computers local drive (C-drive; click the "Change" button to install the LIFO-PRO software to a location other than the C-drive)

Step 10 – Click the next button. The screen below will appear; click the install button to continue:

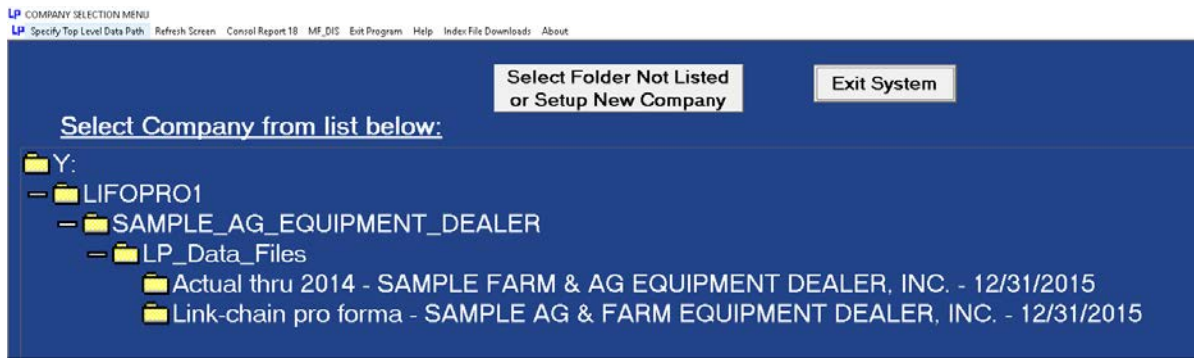

Step 11 – A screen will appear once the LIFO-PRO software installation has completed (see below):

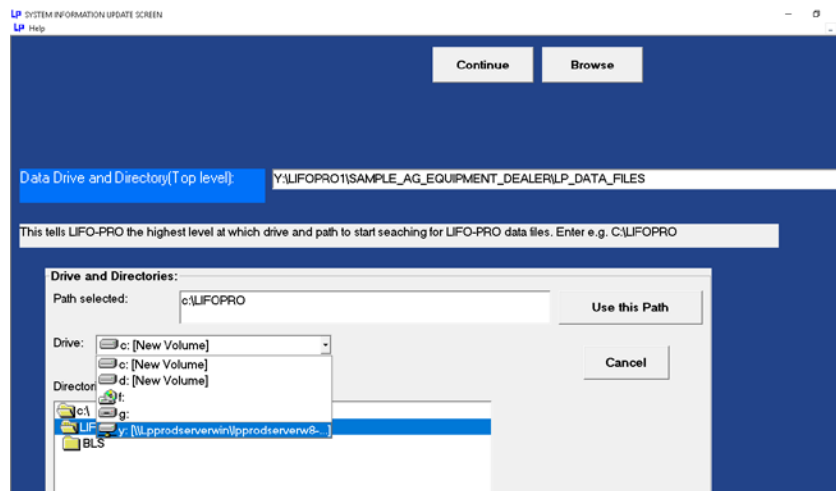

Step 12 – Upon launching the LIFO-PRO Software, the LIFO-PRO home screen will appear (see below):

Step 13 – Select a location from the company list shown on the Company Selection Menu screen. To navigate to a preexisting LIFO-PRO data folder other than the one displayed on the screen, left-click on the “Specify Top Level Data Path” button located on the top-left portion of the menu screen (see below):

Step 14 – The File explorer menu screen navigates to the folder location that the LIFO-PRO software was saved (default location is C:\). To navigate to a different drive location, such as a company network/sever drive, click on the “Drive” drop-down menu box (see below):

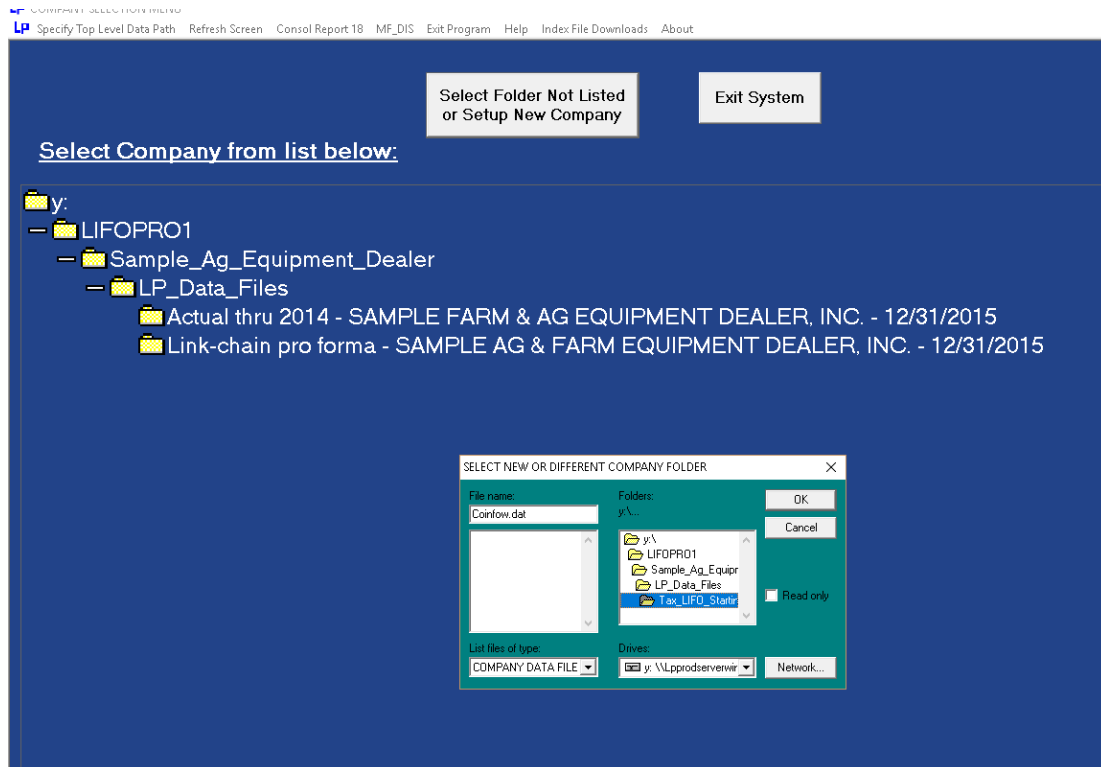

Step 15 – Click the “Refresh Screen” button if the company selection folder tree only displays one data folder, but should be showing multiple folders (see below):

Step 16 – All folders containing LIFO-PRO data files will appear after the screen has refreshed (see below):

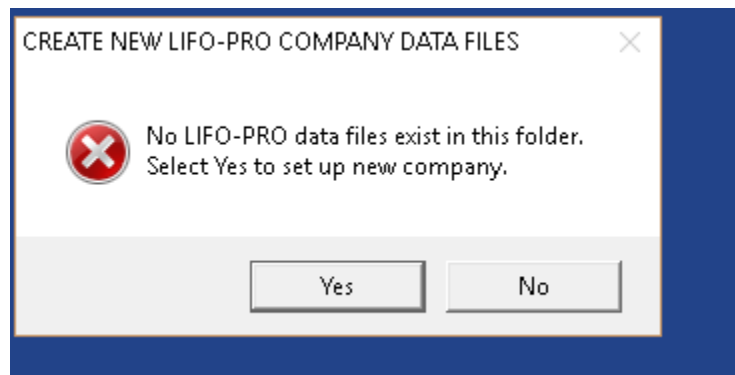

Step 17 – To create a new LIFO-PRO company data file, click on the “Select Folder Not Listed or Setup New Company” button” (see below):

Step 18 – A coinflow.dat will be created to establish a new company data file in the selected LIFO-PRO data folder location chosen under the folder explorer menu box shown in the screenshot above. Click OK.

Step 19 – A prompt screen will appear asking if you want to set up a new company in the folder (see below):

Step 20 - Click Yes to proceed with setting up a new company data file in the LIFO-PRO software. Click no to return to the Company Selection Menu Screen.

Step 21 – Click on the appropriate company folder from the company selection menu screen by left-clicking on the Company folder’s file name or folder icon located to the left of the folder name
